Collins Easy Learning English Conversation: Book 1 is a completely new type of book for learners of English of all ages. It will help you to be able to speak in natural English, even if you have not been learning English for long.

To sound natural in English, you need to know both the words and the grammar. However, it can be difficult to put these two things together and be sure that what you are saying sounds like natural English. Collins Easy Learning English Conversation has been carefully designed to give you whole sentences which you can use with confidence in all your conversations.

Collins Easy Learning English Conversation is made up of 14 units, each giving the language used in a particular situation, for instance shopping, travelling or talking about your health.

In each unit, the language is arranged by language task, for instance 'saying what you want' or 'making suggestions'. Clear headings help you to find what you need. 'Good to know' boxes give advice about things it is important to know.

There are lots of examples of the phrases, and the words in them are explained at the bottom of each page.

At the end of each unit is a page called 'Listen out for', which gives more useful phrases that you may hear or need to use in each situation. This is followed by a conversation, showing the phrases you have learned in a natural situation. You can listen to these conversations on the CD that comes with this book. The CD also contains some useful phrases you can listen to and then practise saying.

After the 14 units there is a chapter which arranges the phrases by language task. So, for example, all the phrases for 'complaining' come together.

After this is a grammar section, giving useful advice on important grammar points, such as how to form tenses, and the differences between countable and uncountable nouns. Finally, there is a short section on useful phrasal verbs.

We hope Collins Easy Learning English Conversation will help you speak with confidence and success. For more information about Collins, please visit us at www.collinslanguage.com.
